

SEVEN

ALL I NEED (from the Season of Change album)

I see the doors they close around me
This pain in life is more than I can bear
The feeling starts to take me over

I need to know, does anybody care
You tell me you won't leave me or forsake me
You promise that you'll always be there, be there

Through the good times and bad times
or any time at all

Your never ending love is all I need

Through the good times and bad times
or any time at all

Your never ending love is all I need

You're all I need

I try my best to make it happen

But when I try I often fail

I find myself out in an ocean

A battered ship without a sail

The storms in life they happen for a reason

To show me that you'll carry me through, me
through

Hebrews 13:5
