EYES ON ME (from the Season of Change album)

I see you in the distance
You're walking straight to my heart
Remember me the one who let you down
The guilt is tearing me apart
I have to wonder as you look at me
Just what kind of man do you see
Am I the one who abandoned you
Or the man you want me to be

Step out of the boat and take my hand
Just believe I'll help you stand
With your eyes on me you'll never fail with your
eyes on me

Be still the wind it listens
As the storm passes by
I feel your love surround me now
I have to stop and ask why
You never see me as a failure
Your arms are reaching to me
You're gonna make me much better
I look in your eyes now I see
